2020

## 'The water challenge' – You have 2 choices today!

1. Create an obstacle course. Fill a plastic cup with water and carry it around the obstacle course as fast as you can. *How full is your cup?* **For an extra challenge travel in a different way.**
2. Collect 6 objects from around your house (check with your adult!) and predict whether you think they are going to float or sink. Test them in water – bath, sink, bucket, bowl etc. **For an extra challenge, explore what happens when salt is added to the water (an egg is good for this one!)**

## Fun underwater fact!

## Literacy

Tiddler – Read the story and talk about the main parts of the story. Put these pictures in order (or draw 3 pictures of your own in the correct order – beginning, middle and end). Use the pictures to retell the story.

Draw a picture of Tiddler and add labels or for more of a challenge, write some sentences to describe him.

## Phonics

You need two different colours of paper (or post its if you have them!) Write the alphabet down on your first colour of paper then ask your grown up to help cut these up so there is 1 letter per piece of paper. Next write down the capital letters of the alphabet on a different colour of paper (or post it) and cut them up so there is 1 letter per piece. Now time yourself – how quickly can you match the upper and lower case letters?

## Maths

Brief reminder of subtraction as taking away – the number gets less. Use counting resources to help you if needed. You will also need number cards 0-9 and 3 'shark' picture/word cards. **20 sea creatures are trying to escape from a shark. They need your help.** Count out 20 sea creatures using your counting objects. Turn over a number card and 'free' (subtract) this number of creatures. *How many do you have left?* Continue until you have freed all the creatures from the shark. If you turn over a 'shark' card then you have to return all 20 creatures to the shark! *How many turns did it take you?* Have another go to see if you can free the creatures in fewer turns.

### Super challenge:

 - 5 - 0 1 2 3 4 5 6 7 8 9 10	
 - 1 - 0 1 2 3 4 5 6 7 8 9 10	
 - 2 - 0 1 2 3 4 5 6 7 8 9 10
