

Oasis Academy Year 6 Songwriting Task 1

Equipment needed: Ukulele (tuned), Chord Chart, Pencil

How do you write a song? You start with choosing one chord from the chart provided and strum one downstroke. Now choose another chord to strum just after it and decide if they sound nice together. If not, keep going through all of the chords on the chart until you find one that sounds nice just after it. Make sure to write it down so you don't forget! Now find another chord to go with the first two you chose using the same steps. Have fun with it and make some nice sounds. There is no right or wrong in this task. We will share ideas with the class after half term.

We need at least 3 or 4 chords for the verses (same in each verse) and 3 or 4 for the chorus (same in each chorus). You can also choose how we should strum it too.

Here is our song structure once you have your idea, write the chords in the spaces provided.

Intro:

Verse 1:

Chorus:

Verse 2:

Chorus:

Verse 3:

Chorus:

Outro:
